

Projects/libraries  
/HawkCommon/src/userinfo.h

```
graph TD; A["Projects/libraries  
/HawkCommon/src/userinfo.h"] --> B[QUuid]; A --> C[QDate]; A --> D[QString]; A --> E[QDateTime]; A --> F[QByteArray];
```

The diagram illustrates the dependencies of the file `userinfo.h` on various Qt classes. The top box, representing the source file, has five arrows pointing down to boxes for `QUuid`, `QDate`, `QString`, `QDateTime`, and `QByteArray`.

QUuid

QDate

QString

QDateTime

QByteArray
